

# A Job Well Done

Eric Albinsson

"Everything is perfectly organised, everyone knows what to do. In fact the time is going very quickly in the office but there is no place for any mistake or misunderstandings."

**Colona Dive Centre S-3681, Hurghada, Egypt**

"I have nothing but the highest praise for my instructors on this Open Water and follow-on Advanced Open Water courses. Their professionalism did not detract from their sense of humour, and they constantly encouraged and corrected my and the other students actions and behaviour.

Their dedication and example as role models made it easy for us to adopt a mind set of safety and responsibility during or training that will stay with us forever."

**Dive Action S-32385, Cape Town, South Africa**

"I cannot stress too highly the friendly and professional attitude of everyone we encountered at Triton Scuba. I had never considered the possibility of diving in the UK, but their enthusiasm and encouragement is so infectious that I am doing so now. It is hard to envisage a better group of ambassadors for the sport of for the training and certification programme."

**Triton Scuba S-3582, Portsmouth, England**

"I had no idea that this course would be so much fun. I had many fears before starting the course, but thanks to the course material an absolutely superb instructor, Darryl de Jager, it was a truly pleasurable experience."

**Darryl de Jager MSDT-617471, Alberton, South Africa**

"Joanne was a model of integrity; no detail was overlooked and the

tests were stringent. I have to admit that I am 62 years old and Joanne made no allowance for me in completing the exercises but coached me through when at times I was ready to quit."

**Joanne Newnes OWSI-630305, Mold, England**

"We would like to state at the outset that Caroline was in many ways the best teacher we could have had. She was the perfect blend of being patient and caring, yet challenging and motivating. Caroline was unrelenting in making sure that we passed all the skill tests, and also ensured that she had confidence in us and we in ourselves before taking us on the dives."

**Caroline Gerresch IDCs-927923, Hurghada, Egypt**

"I especially admired Oguz Seker, one of the instructors, for

his sympathetic and professional behaviour towards me and towards all the other students for whom he was responsible."

**Oguz Seker MSDT-626465, Izmir, Turkey**

"The instruction that I received on the open water course was excellent. I am an adventurous activities instructor myself, and feel that the instruction was some of the best I have seen in the industry."

**John Welch OWSI-611926, Pemba Island**

"I have been shown professionalism, role model behaviour and the need for keeping to standards. It is my fullest intention to pass these things which I have been taught so well onto my forthcoming students."

**Alan Whitehead CD-606447, Liverpool, England**

## Jordan Direct UK flights to Aqaba

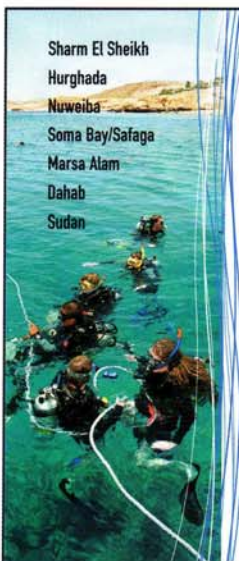

Every Tuesday from 5 October 2004 until the end of March 2005, travel company Voyages Jules Verne is launching a direct flight from Gatwick to Aqaba in Jordan. This is presently the only direct flight to Aqaba from the UK.

Aqaba is attractive to divers in several niches:

- The holiday diver who comes with family and friends and just wants a few days diving

- The diver who is interested in history and culture and a more general holiday with wider experience
- The underwater photographer who is after unique reef shots – of which there are plenty on Aqaba's reefs.

VJV cannot arrange or advise on diving but can book flights, hotels and transfers. For more information contact David Deane, Product Manager, Voyages Jules Verne. Call + 44 (0) 207 616 1086 or visit [www.vjv.com](http://www.vjv.com).
